

Dear Mr./Mrs. ,

I was inspired to contact you upon learning that Continental Automotive has an opening for a new Software Engineering Intern. So far I have focused my career path and academic pursuits on learning and developing those all-important skills necessary to be great in this type of role.

Describing myself, I would say I'm ambitious, hardworking, fast learner and always eager to improve. Additionally, my abilities extend to motivation and innovation with proficiency in problem-solving. These qualities will help to support Continental Automotive's mission while reflecting positively on the professionalism and competencies in its employees.

As far as expected salary, I know this is a paid internship, but that isn't the most important part. My main goal regarding this position isn't of a financial nature, but to learn, improve, and hopefully become part of Continental Automotive.

For further details of my qualifications, background, and experience, please take a moment to review my enclosed resume. I believe that I can successfully be the Software Engineering Intern you're looking for and I'm looking forward to the opportunity to speak with you at your earliest convenience.

Sincerely yours,
Miloš Topolić
